ProNote® 330

Count on performance and security

The new ProNote 330 value counter follows on from the class-leading ProNote 300®. With its flexible application options, the ProNote 330 is ideal for banks, currency exchanges, retailers, and other users who expect the highest standards of counterfeit detection and serial number reading.

The ProNote 330 can count banknotes in any currency, and verify them with numerous security features, while simultaneously determining the value of the processed banknotes. It is also easier to operate than ever before, with its intuitive touch screen.

Finally, experience enhanced productivity with its performance: the ProNote 330 can process 1,500 banknotes per minute.

Quick, flexible, and intuitive

Superior performance

The ProNote 330 counts and verifies mixed banknotes with exceptional speed and reliability. Its auto-currency function makes operation easy, while the mixed-currency function enables simultaneous processing and accounting of different currencies.

Reliable precision

Its high-resolution sensor meets all current requirements for advanced counterfeit detection. This advanced sensor technology ensures the highest level of authenticity recognition. If required, it can also read and compare serial numbers!

Extremely easy operation

The touch screen LCD display and clear menu guidance ensure simple and user-friendly operation; the most important functions can each be selected with a

single tap. With dimensions of just 255 × 263 × 268 mm, this portable device also has an extremely small footprint.

Future-ready flexibility

In addition to a flexible range of applications, the ProNote 330 is also ready for future developments. With simple updates, for example, the system can be adapted quickly to new requirements.

TECH FACTS

Speed:

Counting speed
up to 1,500 BN/min

Authentication speed
up to 1,200 BN/min

Serial number reading
and comparison speed
up to 1,200 BN/min

Mixed currency processing,
incl. auto-currency detection:
1,000 BN/min
(adjustable speed:
high/medium/low)

Currencies:

up to 30 currencies

Singler capacity:

(depending on BN quality)
up to 300 BN

Output stacker capacity:

(depending on BN quality)
up to 200 BN

Dimensions (H × W × D):

255 × 263 × 268 mm

Weight:

~6.5 kg

Temperature range:

0°C–40°C

Electrical specifications:

100–240 VA, 50/60 Hz

External connections:

LAN, Print (RJ11), ext. display,
USB, SD card

Certificates:

CE, RoHS
